

Pothole Advisory

As potholes continue to appear, if you should come across a pothole on a road in town, please report it to our Public Works Department by calling (908) 725-6300 Ext: 6000 or send an email to publicworks@bridgewaternj.gov. Please give us the location of the pothole so that we can repair it as soon as possible. When driving, please be careful near puddles and standing water, as a pothole may lurk beneath the surface.

The melting snow makes it difficult to fill all potholes at times. Public Works is out each day filling the potholes as they come in. There may be some areas that crews must visit several times in order to address the spots where the blacktop has popped out due to the weather and traffic. Over the next month or two the crews will be dedicated to filling all potholes on Township roads. Your assistance and patience is greatly appreciated.

If the pothole is on a county road, please call Somerset County at (908) 541-5021 or click on this link to complete an online roadway complaint inspection form:
