

SPECIAL TRAFFIC NOTICE

The Township has commenced capital projects which are slated to be completed before school resumes. Many of these projects will begin on or about the weeks of August 3rd and 10th. The construction will entail detours and the public is thanked for its cooperation and consideration as this work progresses. Please note that access to individual homes will be available to all residents at all times. Please see the following message from the Police Department:

“On or about August 10, 2015, the following roads are scheduled to be closed simultaneously for upcoming road improvements:

1. Country Club Road between Reagan Drive and Talamini Road
2. Van Holten Road between the entrance to the school and Foxcroft Road
3. Talanimi Road between Glen Ridge Drive and Red Lion Way

Work is scheduled to be completed before school begins (early September). Work being performed includes: milling, overlay, sidewalks, curbing and ADA ramps.

The Bridgewater Township Division of Engineering set up an extensive detour route. Please follow the posted detour route. Although the roads will be closed to thru traffic, emergency vehicles and local traffic will be allowed to pass through the work zones.”

Please note that the streets listed by the Police are imminent, but there are several other paving projects either underway or to be constructed by the end of the year. Most have associated detours.

Commuters who travel through Bridgewater to access other areas are encouraged to use the major thoroughfares to bypass the construction

zones. This would include the use of Routes 28, 22, 202-206, the County Roads, and local Garretson Road.

The Township thanks you for your patience as we complete our road paving repairs.

Concerns should be called to 908-725-6300 at extensions 5500 or 5501.
