

## Snow Removal Update January 25, 2016

Our Public Works crews worked throughout the night making our Township roads passable. Bridgewater, like most towns in the Central NJ region, received almost two feet of snow, with drifts much higher in places. Our crews will be working throughout the day cleaning roads curb to curb and taking care of line of sight concerns due to large snow piles. Please be patient and allow our crews to clear the roads as best as possible.

Schools are closed today which will give us extra time to clear residential streets. Please remind your children to be aware of snow removal equipment and other traffic when playing outdoors.
