SAVE THE DATE – SPRING RABIES CLINICS

The Bridgewater Division of Health strongly urges all Township residents to have their dogs and cats immunized against rabies. Rabies in wildlife, especially raccoons, continues to be a public health concern in New Jersey as well as Bridgewater Township. The best defense against rabies is prompt vaccination of domestic animals. Township residents may bring their pets to be immunized against rabies at one of the following clinics.

Saturday – May 14
Bradley Gardens Firehouse
24 Old York Road

Dogs only 9 AM to 10 AM
Cats only 10 AM to 11 AM

Tuesday – May 17
Martinsville Firehouse
Mt. Horeb and
Washington Valley Road

Dogs only 6 PM to 7 PM
Cats only 7 PM to 8 PM

Tuesday – May 24
Finderne Firehouse
672 East Main Street

Dogs only 6 PM to 7 PM
Cats only 7PM to 8 PM

Saturday – May 28
Bridgewater Municipal Complex
100 Commons Way

Dogs only 9 AM to 10 AM
Cats only 10 AM to 11 AM

It is extremely important that all dogs brought to the clinic be securely leashed and accompanied by an adult. All cats must be leashed or contained in a secure box or carrier. Current license information will speed processing but is not necessary for a vaccination. All rabies vaccinations will be provided to pets free of charge.
