Thomas Skrable, PE was sworn in for testimony and was accepted by the Board as an expert witness. Mr. Skrable provided testimony as follows: The applicant is proposing a pool and patio in the rear yard. As a result of the proposed development, the improved coverage increases from 19.5% to 20.59%, whereas the maximum permitted improved coverage is 18%. The proposed pool is approximately 842 square feet and the associated patio is 419 square feet. It a modest size pool with a small patio and equipment pad. Mr. Skrable reviewed the reports of the Township professionals. The applicant agreed to install a storm water seepage pit or perimeter drain if deemed necessary by the Township Engineer.

The Board suggested moving the pool equipment pad to the back portion of the property closer to the drainage area.

**ANDREW D'AMICO**-36 North Ave.  
Block 111 Lot 12  
#17-016-ZB- Variance- Demolish existing home and rebuild new home

Attorney Christopher Erd was present on behalf of the applicant. Mr. Erd explained that the applicant's proposal was to demolish the existing home and shed on the property and build a new home with a partially attached garage.

Andrew D'Amico, applicant was sworn in for testimony. Mr. D'Amico submitted an exhibit that was marked into evidence as follows:

- A-1 8/15/17 Photos of existing conditions at the property**

Mr. D'Amico provided testimony as follows: The existing home is old, very small and in poor condition. He and his wife fell in love with the beautiful setting and views at the property overlooking the North Branch of the Raritan River. Mr. D'Amico reviewed the reports of the Township professionals and agreed to change

the street address to Morris Street as suggested to be more in line with the neighboring properties. Mr. D'Amico explained that in 2005 a portion of Morris Street was vacated and as a result of this vacation, the side yard became the rear yard creating the need for variance for rear yard setback.

Craig Stires, PE was sworn in for testimony and accepted by the Board as an expert witness. Mr. Stires submitted exhibits that were marked into evidence as follows:

**A-2 8/15/17 Aerial photo**  
**A-3 8/15/17 Colored version of Site Plan**

Mr. Stires described the property and provided testimony as follows: As a result of the vacation of a portion of Morris Street in 2005, the front yard of the property became located on Morris Street which changed the setback requirements. The applicant proposes to demolish the existing home and shed to construct a new 40 x 44 log cabin with a 34 x 24 garage that would be adjacent to the home. The proposed dwelling will have a rear-yard setback of 22 feet, whereas the minimum rear-yard setback required is 50 feet. There is a 50 foot riparian buffer zone in the rear of the property due to its location near the Raritan River. The applicant will provide a letter from their environmental consultant confirming that there are no wetlands. The proposed size of the home is consistent with the size of the homes on neighboring lots.

Vice Chairman Kirsh opened the public portion of the meeting for questions. There were no questions or comments.

Christine Cofone, PP was sworn in for testimony as was accepted by the Board as an expert witness. Ms. Cofone provided testimony as follows: This is a substantially conforming application. The only variance the applicant is seeking is for rear yard setback. The proposal complies with other bulk requirements, including improved coverage and floor area ratio. The applicant's proposal is reasonable and the proposed dwelling is comparable to the size of other dwellings in the area. The proposal would neither result in substantial detriment to the public good, nor substantially impair the zone plan or zoning ordinance.

Vice Chairman Kirsh opened the public portion of the meeting for questions or comments.

Joseph Saling of 44 North Ave. was sworn and stated that he was in favor of the applicant's proposal.

Vice Chairman Kirsh closed the public portion of the meeting
