

**LEGHORN PROJECT SCOPE/COMPLETION**  
**SYCAMORE AVENUE TO OLD YORK ROAD**  
**PINE STREET TO ARDMAER DRIVE**

Construction will begin in October and be completed in the spring of 2018. We are replacing the mainline sanitary sewer and sewer laterals within the Right of Way as well as making stormwater drainage improvements in conjunction with the roadway reconstruction. The road will be widened to a uniform width, no curbing is being installed. Although some temporary paving will be done as the project progresses, the **final paving** will be completed in the spring.
