

# Rabid Raccoon Warning

Please be aware that a raccoon found on Ardmaer Drive in the Bradley Gardens section of Bridgewater tested positive for rabies. Please be cautious of wildlife exhibiting unusual behavior. Rabid animals are usually either vicious and aggressive, or may appear to be drunk, in a trance like state or have trouble walking. Some animals may be rabid even though they appear to be normal. People should stay away from all wild and stray animals which are aggressive or appear to be sick. For more information on rabies please visit [https://www.nj.gov/health/cd/documents/faq/Rabies-New%20FAQ%20logo\\_Jan2018.pdf](https://www.nj.gov/health/cd/documents/faq/Rabies-New%20FAQ%20logo_Jan2018.pdf). If you think you are in immediate danger please call 911. If you would like to report a rabid animal please call the Bridgewater Health Department at 908-725-5750.
