

Mayor Hayes Installed as President of SCGOA

This week, Wednesday evening, Mayor Hayes was installed as the President of the Somerset County Governing Officials Association (SCGOA). The SCGOA is a bipartisan organization whose goal is to promote good governance throughout the County by fostering stronger relationships and sharing best practices among elected and appointed official and Board Members throughout the County.

“Collectively, the SCGOA Members represent approximately 350,000 residents. All of us are united by a vision of continued good governance and desire to serve. I look forward to serving my fellow officials, planning programs suited to their interests, and for the residents of Bridgewater I am looking forward to strengthening our relationship with leaders around the County, sharing best practice ideas and continuing our Township’s reputation for leadership,” said Mayor Hayes.

In addition to the installation of officers, three awards were presented. Bernards Committeewoman Carol Bianchi was recognized for her leadership as outgoing President. North Plainfield Councilwoman Keiona Miller and Former Bedminster Committeeman Bernie Pane were recognized for outstanding contributions to the County in 2019.

Congratulations to them all!
