8. LAND DEVELOPMENT APPLICATIONS

Interested parties may arrange to come to the Municipal Building during normal business hours (9am-5pm) to review documents for the following applications. You may also access the documents from the Municipal website and click on the link below for application information. The Planning Department can be reached at (908)725-6300, ext. 5530.

- **Application No. 23-009-ZB; Chimney Rock Self Storage**
Block 800, Lot 9; 1661 Route 22
Major Site Plan with D Variance & Bulk Variances
Summary: The 3.44-acre site is located in the C-5 zone and currently supports an office building that the owner describes as being significantly underutilized. The applicant desires to remove all structures on the site and construct a 3-story self-storage building having its sole frontage on Route 22. The application is for Preliminary and Final Site Plan approval with numerous variances.

ANNOUNCEMENT ONLY - TO BE CARRIED TO 2/27/24 AT 7pm WITHOUT FURTHER NOTICE:

- **Application 23-014-ZB; CX Towers**
Block 163, Lot 6.01; 719 Route 202
Preliminary & Major Final Site Plan with C&D Variances
Summary: Maintenance activity of the New Jersey American Water tank in 2015 required the installation of a temporary tower to accommodate wireless communications antennae housed on the tank. At that time, the height of the antennae was 110 feet. The temporary tower structure was proposed to be 140' in height. The current proposal is to construct a tower that is 160' tall. The proposed tower does not conform to the permitted use or height restrictions set forth in the ordinance.

ANNOUNCEMENT ONLY - TO BE CARRIED TO 2/13/24 AT 7pm WITHOUT FURTHER NOTICE:

- **Application No. 23-011-ZB; 1200 Route 22 Land Investors & 1200 Route 22 LLC Holding Block 221; Lots 1.02, 1.03, 1.04, 2 & 2.01; 1210 & 1220 Route 22**

Preliminary & Final Site Plan Approval with variances

Summary: The 27.6-acre property is located on the southerly side of Route 22 eastbound and is in the M-1B and zone. There is currently a 3-story office building on the site which is to remain. The proposed office area is 112,000 s.f. and the warehouse area is 179,973 s.f. (35 loading bays) plus 28 outside trailer parking spaces. The buildings will be located at the very back of the property, abutting the site is the ELKS, located in the R-20 Zone and some residential lots on Woodside Lane which are located in the R-10 zone. Lots 2.02 and 2.03 are located in the M-1B zones but were granted to have single family dwellings located on them. Currently on the property is a 3-story office building which is proposed to remain. Insufficient parking is provided on the site and the Applicant asks the Board to grant relief from the required number of parking spaces and relief from the requirement to provide Banked Parking. The required buffer against residential requires variance relief as well. The Manufacturing Zone (Small Lot) M-1B zone is controlled by Section 126-317. This zone does not permit warehouses as a Principal Permitted Use. The Applicant seeks a d(1) and a d(6) variance. For this reason, the application is before the Zoning Board. The Applicant also requests 'c' variance and design waiver relief. In addition to steep slopes, there are a floodway (3.3 acres), flood fringe (2.5 acres), wetlands (5.20 acres), and wetland buffers on this site as well.

ANNOUNCEMENT ONLY - TO BE CARRIED TO 3/12/24 AT 7pm WITHOUT FURTHER NOTICE:

- **Application No. 23-010-ZB; Bellie Holdings LLC Block 249, Lot 40; 19-21 Mount Pleasant Ave**

Use Variance

Summary: The 1.24-acre property is located on the northerly side of Main Street and lies within the R-10 zoning district, which is limited to single-family residential purposes. The applicant seeks approval to construct 14 townhomes on the site, all of which are 3-bedroom units. The access to the townhomes will be from Main Street and then through a portion of existing Mt. Pleasant Avenue (an existing easement that services Mt. Pleasant Villas, which is in the R-MDU 10.5 zone district). There are no steep slopes on the property. The applicant seeks use variances, which are the type of units (a d(1) for townhouse v. single-family), a d(4) which is for F.A.R. and a d(5) which is for exceeding the density permitted for the lot. If the applicant believes that the c variances are to be subsumed with the d's, the application also violates the maximum lot coverage.
